SINCE 1880

- Machado Joalheiro was founded in 1880 in Porto, housed in a building by Architect Francisco Oliveira Ferreira classified as City Heritage, from which the sculpture "My Loves", by José Ferreira de Oliveira stands out.

- For more than one century Machado Joalheiro has been creating and producing unique pieces of jewellery, that represent and highlight creativity and inovate character. Inspired in its memories, we created a collection of fine jewels.

- Jewellery is essential to Machado Joalheiro. Adding to its own exclusive collections, you can also find a choice of international brands.

- Filigree traditional jewellery and portuguese folk jewellery also plays an important role in Machado Joalheiro.

- From its foundation, Machado Joalheiro has been dedicated to watches. A significant choice of fine watch brands is available in its shops.
